SAVE TIME

- Takes less than 5 minutes to install
- Fits on most standard faucets with aerators-simple 2-step installation

SAVE MONEY

- Reduces water consumption by up to 70%
- Reliable infrared sensor conserves water by stopping water flow automatically and instantly when not in use
- 3-minute automatic time-out feature minimizes chance of overflow
- Manual on/off over-ride button provides constant flow to fill sink, pots or other containers
- Prolong the life of your faucet by eliminating excess wear on rubber gaskets and washers

HYGIENIC AND USER FRIENDLY

- Prevents cross-contamination by eliminating the need to touch handles
- Promotes thorough hand washing with preset one-minute timer in auto-mode
- Makes operation easy for seniors and small children by simply placing hands under the faucet
- Turns on automatically even when both of your hands are full
